

Sport Premium Funding for 2019 – 2020

We recognise the contribution of PE to the health and well-being of the children. We believe that an innovative, varied PE curriculum and extra-curricular opportunities have a positive influence on the concentration, attitude and academic achievement of all our children.

Investing in physical activity for our children is a vital step in encouraging them to lead a healthy lifestyle for their future. Our vision is to provide active opportunities for our children and furthermore include all in healthy competition. We aim to deliver a programme of activities to improve agility, balance, coordination and most importantly the knowledge of the benefits of regular and sustained physical activity throughout life.

Our Sports Premium Funding will enable us to continue and extend our provision through employing additional sports professionals, entering more into competitive sports, competitions and training our staff to deliver high quality PE sessions.

	Objective	Cost	Intended outcome	Actual Outcome July 2020
