6EH

Miss Haycox

Mrs Bowie

6AR

Mr Redman

Mrs Lancaster

Welcome to Year 6

Welcome to Year 6

We look forward to seeing you in September.

Autumn Term - Our topic is World War Two including the importance of D-Day. We will be looking at why World War Two happened and what life was like from 1939-1945. We will then find out about D-Day and the effects this had on Great Britain. We will also look at the Science topics Fuel for Life and Living Things and Their Habitats.

Spring Term - Our topic is Ancient and Modern Greece. We will be learning about the Geographical features of Greece as well as improving our general geographical knowledge. We will also discover what life was like in Ancient Greece and link this to our life today. We will also look at How We See Things and Electricity for our Science topics.

Summer Term - During this term we will spend time revising leading up to SATS. After this we should be able to relax and practise our artistic and performance skills with our end of year production. We will also start preparing ourselves for Secondary School.

What do we expect in Year 6?

Reading at home

It is expected that your child reads at home at least 3 times a week to support and develop their fluency and comprehension. We would like this reading to be recorded in your child's reading record book which they will be given.

Spellings

It is a statutory requirement that the children learn certain words throughout each year they are at school and there is a list of words that we will be focussing on. Your child will be learning spelling rules to go alongside this. Spellings will be sent home and tested weekly.

Maths

We will continue working through the Magnificent Multiplication scheme that we have in school. The children have to complete each test 3 times before they can move on to the next one. Children will receive certificates when they achieve this. At home you can support your child by helping them become more fluent with their times tables.

Thank you for your support.
